

Lesson 5 Worksheet: Ionic Formula Writing

1. Aluminum Bromide _____
2. Platinum (II) sulphide _____
3. Strontium sulfite _____
4. Scandium oxide _____
5. Titanium (IV) nitrite _____
6. Ammonium sulphate _____
7. Lithium selenide _____
8. Lead (II) hydrogen sulphate _____
9. Sodium acetate _____
10. Cesium chloride _____
11. Cadmium (II) hydroxide _____
12. Zinc phosphate _____
13. Barium chloride _____
14. Tin (II) permanganate _____
15. Lithium hypochlorite _____
16. Gold (III) sulphate _____
17. Sodium nitrite _____
18. Chromium (III) chloride _____
19. Potassium carbonate _____
20. Iron (III) bisulphate _____
