

GENETICS

GENETICS AND DIVERSITY

Learning Outcomes:

- I can describe how genetic diversity accounts for differences between individuals, species and ecosystems.

Biodiversity

- _____

- _____

- _____

1. Genetic Diversity

- _____

- _____
 - _____

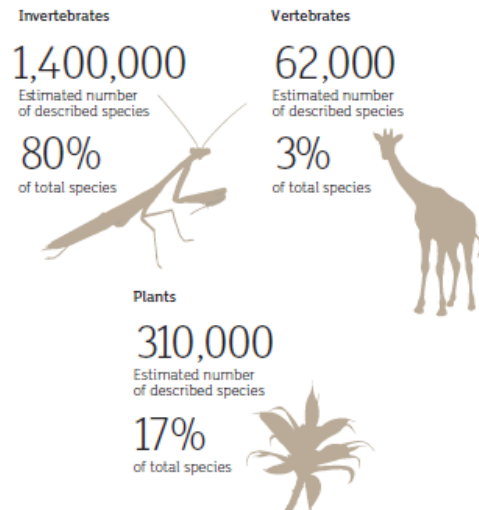

2. Species Diversity

- _____
- _____

- _____
- _____
- _____

Figure 04 | Estimated number of described species and the percentage of total species they represent (based on Scheffers *et al.* (2012)).

3. Ecosystem Diversity

- _____
- _____
- _____
